Figma for Windows

installation instructions

STEP 3

After the download is complete, open the downloaded file and follow the on-screen instructions to install Figma.

If you have **Windows**: double-click on the downloaded file to start the installation. The application will install automatically.

Important!

Make sure you have a stable Internet connection, as Figma downloads some components during installation.

STEP 4

Once installed, you can log in to your Figma account and get started.
