

Computer requirements

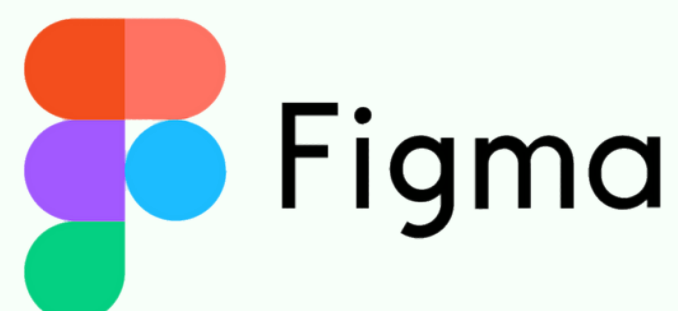

Figma: Learning Design from Basics to Pro

To work with Figma, you will need the following computer configuration:

- Screen resolution: 1280 x 800 or higher, 32-bit color
- Operating system: Windows 7+ / Mac OS X 10.9+ / Linux (Ubuntu, Fedora)
- RAM: from 4 GB
- Disk space: from 250 MB
- Browsers: Chrome, Edge, Firefox, Safari (Figma works best in Chromium-based browsers such as Google Chrome and Microsoft Edge)
- Internet connection: 15+ Mbps

International School
programming and design

Important!

Keep in mind that Figma is a browser-based application, so actual requirements may vary depending on the complexity of your projects. More complex projects may require a more powerful computer.
