Installation Instructions Python

1. Visit the <u>official website</u>

https://www.python.org/downloads.

 To install the Windows version, click
Download Python (at the time of creating the instructions, the latest version is 3.13.2.
If a higher version is specified, download it).
For other operating systems, select the appropriate link and follow the installation instructions:

3. After clicking on this button, the installation file will start downloading. If you are prompted to Save or Open a file, select the Save option.

4. After the download is complete, run the file you just downloaded.
