

General instructions for working **online**

CODDY

for parents

Dear parents

here are the general instructions for working online,
where in a single document you will find all the
instructions and files prepared by us.

Radmin

Hamachi

Zoom

Discord+AnyDesk

Skype

Google Hangouts

Instructions for installing Radmin VPN

Radmin VPN (is needed for teacher and student to work together on one server in Minecraft) - [official website](#)

Instructions for installing are available [here](#)

Instructions for installing Hamachi

Hamachi (is needed for teacher and student to work together on one server in Minecraft) - [official website](#)

Instructions for installing are available [here](#)

CODDY

Instructions for installing Zoom

Connection and remote control of a desktop is carried out through Zoom.

Zoom - [official website](#)

Instructions for installing are available [here](#)

CODDY

Instructions for installing Discord+AnyDesk

Connection is carried out through Discord with the ability to help student through the program for remote access to desktop - AnyDesk.

Instructions for installing are available [here](#)

CODDY

Instructions for installing Skype

1. Go to the official website

2. Click on Download Skype.

3. Select Download Skype for Windows (or other OSs: Mac, Linux).

4. Save the Skype installation file to your computer.

5. Double-click on the Skype installation file and follow the simple steps to complete the installation.

6. Launch the Skype program and enter the network by entering your username and password.

How to search and add contacts in Skype

1. Go to the Contacts menu
2. Click the Add Contact icon or select a text box and enter the name, Skype name or email address of the person you want to add. Click Search in Skype.
3. Select your friend's profile in the search results and click the "Add" button to the contact list.
4. Write a short message to introduce yourself and click Send.

The contact will be added to the list, but will be displayed with the status "Offline" until your request is accepted. If the user accepts the request, you will see when he/she is online, and you can call him/her for free via voice and video.

CODDY

Instructions for installing Google Hangouts

(for @gmail users)

1. Follow the [link](#)
2. Choose a communication method: video call, message, call.
3. To start a video call, you need to install a plug-in
(information about this will appear in a pop-up window)
4. Connect with the person.

A group of people are high-fiving in an office setting. The hands are stacked in the center, with fingers pointing upwards. The background shows a blurred office environment with a window and a desk with laptops and a water bottle.

Good job!

We wish you productive
learning!
