# PYTHON

## Instructions for installation

- 01 Go to:  
<https://www.python.org/downloads/>
- 02 Click **Download Python 3.8.2** (3.8.2 was the last version when this instruction were written, so If you see another later version - just download it)
- 03 Download must start right after you click the button. If the browser asks you to Open or Save file choose **Save File**.
- 04 After finishing the download - run the file you just downloaded. If system asks you "Are you sure you want to run this file?" press **Run**.
- 05 After Installation program is started make sure you mark the checkbox **"Add Python to Path"**. Click **Install Now**.

- 06 Wait until the installation is finished. Then click **Close**. Python is installed!
